

PODS

Advances in technology, changing work patterns and the trend towards open plan workspaces have resulted in an evolution of the modern workplace. Pods create both focused environments within open plan offices and provide ideal spaces for ad hoc meetings and sharing ideas.

The products across the range are available in various heights offering different acoustic and privacy benefits. Their innovative geometric shape maximizes space efficiency whilst also reducing surrounding noise.

DESIGN

Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test center and prototyping lab.

STANDARD FEATURES (*Selected models only)

- Internal steel frame with multi layered foam construction
- Vertical panels upholstered in Camira Blazer fabric (two-tone standard)
- Quick release panel connector system
- Leveling adjusters
- 1" TFL work surface*
- Integral under work surface vertical cable management*

MATERIAL CONTENT

Components are constructed of the following

RECYCLED CONTENT

Contains up to 39.75% of Recycled Material

RECYCLABILITY

The range is 99% recyclable

99%

Environmental information for this range has been based on HAPDQ14.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

While recycling is the element which

receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

REDUCE REUSE RECYCLE
