

Xpress

SENATOR

# Exactly what you need but quicker...

Every product in this brochure is part of the Senator Xpress Programme, available to ship in 7-10 days. All other alternate finishes are available on standard lead times.

These products have been chosen for versatility, popularity and are suitable for a wide range of applications, without compromise.

Whether you're furnishing a new office, café, conference room, or breakout space — the Senator Xpress Programme gives you what you need, when you need it.

The Senator Group works to maintain significant inventories to support our Xpress Programmes. All products that are in stock will ship in 7-10 days. Should our inventories be depleted we will provide most prompt ship date possible. The Senator Group's Xpress Programme is limited to only models and finishes listed. Our 7-10 day Xpress goal begins once a clean and complete order has been accepted and entered and any and all business terms have been satisfied. All Senator Group related business terms and conditions apply. Products are listed with maximum available purchases for a given project. The splitting of orders to circumvent maximum quantities will not be allowed. Please contact your Senator Group Dealer or representative to request expedited larger quantity purchases outside of this Programme.

# i-Workchair 2.0

Through the use of advanced knit technology, we've married a complex structure of high performance yarns with softer, more tactile melange yarns, to not only create a unique and contemporary design but to bring additional strength, support, and breathability to i-Workchair 2.0.

Utilising a new generation of synchronised tilt action, i-Workchair 2.0 mirrors the body's natural pivot points, providing a seamless transition between task focused work, and more relaxed, reclined postures.

**WRKN140MF**  
Multifunctional Arms

**Dimensions:**

# Freeflex

Freeflex provides a clever and adaptable solution to support the user’s movements in their working environment. Flexibility is central to the design of Freeflex, giving the user the freedom to make simple adjustments to the seat height, seat depth and back height to achieve ultimate comfort.

In designing Freeflex, special attention was paid to the user’s natural pivot points, where they flex and where they don’t. This inspired the development of a dynamic weight balancing tilting action along with an articulated flexing back that intuitively encourages movement, while providing proper support in all positions.

# Rapt

Rapt exudes poise and offers a fresh alternative to the established norms of executive seating. It has been created to grace environments where key decisions are made, where success happens, where detail and conviction are imperative, and where extraneous distractions need to be eliminated.

The elegant and minimalistic design also provides exceptional comfort, featuring generous proportions and an anatomically shaped, cushioned seat and back. The one piece aluminum arm rest with a rigid polyurethane inlay and leather texture envelops the chair beautifully and creates a strong continuous structure.

# Circo

Circo is a functionally simple, light work chair for working, collaborating and meeting. Featuring a permanently floating action and a mesh back that morphs to support the user. Circo is suitable for both conference and meeting environments.

Circo's designer, Justus Kolberg, worked closely with toolmakers and injection moulders to exploit the latest technical possibilities of a complex single piece frame. The result is a chair that's tremendously strong but incredibly light.

# Trillipse Four Leg

Trillipse is the original multi-purpose chair family. The four leg, developed as a general purpose meeting chair for the workplace and educational environment, is the basis of the range and as such also includes a host of options to enhance its versatility.

The scale, comfort and uncompromising build quality of Trillipse has ensured the continued success of this range. Developed as a general purpose meeting chair range for workplace and educational environments, it is just as at home in compact team meeting spaces as it is in a boardroom, thanks to the diversity of finish options.

# Trillipse Motion

Trillipse is the original multi-purpose chair family which includes a whole host of options to enhance its versatility. The Motion model adds castors to the base frame, making the chair ideally suited to the educational sectors and training rooms.

The scale, comfort and uncompromising build quality of Trillipse has ensured the continued success of this range. Developed as a general purpose meeting chair range for workplace and educational environments, it is just as at home in compact team meeting spaces as it is in a boardroom, thanks to the diversity of finish options.

# Densiti

Delicately simple Densiti's wire frame removes any unnecessary distractions to create a chair with perfect visual proportion and form. But this doesn't mean we've compromised on comfort.

Densiti delivers stunning comfort for extended periods thanks to its meticulously crafted multi-dimensional seat and back — something not typical with such a minimal, hard surface, design.

# Chemistry

Chemistry is a range of workstations designed to facilitate flexibility and diversity demanded by modern working environments. As the modern workplace evolves, there is a declining demand for the 'one size fits all' approach. Instead, workplaces require spaces that are flexible and collaborative, facilities that are efficient and streamlined, combined with an atmosphere that can be both formal and informal.

# Adapt Wall

Engineered for possibility. Its lightweight form is deceivingly agile, enabling greater ease of movement yet being extremely stable ensures Adapt Wall can confidently transform any space on demand.

Individuals, as well as organisations, have all learned to react to new ways of working. This constant reaction to the change of an individual’s daily working routine was the catalyst for Adapt Wall. Born out of the idea to create mobile partitions — to enable more agile, fluid, and flexible spaces — empowering every user to create spaces that work for them at that moment.

# Mote and Talon

Talon is a stunning collection of versatile laptop and occasional tables designed to accompany soft seating in lounge or breakout areas.

The innovative delta shaped laptop table can be used alone or clustered together for ad-hoc collaborative working. High and low occasional tables in a variety of complementary shapes and finishes complete the range.

Mote responds to the demands of dynamic work environments; versatile, reconfigurable spaces for meeting, learning, focusing, or relaxing. No detail is an afterthought with every inch having been given careful consideration to reclaim redundant space.

Meet at casual and open Mote configurations that use sofas and ottomans, or Retreat to more private and peaceful settings by erecting screens and canopies.

# Play Tables

As we transition from the traditional fixed desk office into a more open, collaborative, and informal working style so have our everyday working requirements. Play is a solution that enables users to store, divide, meet and work in anyway they deem fit.

Each table in the Play range opens up a wide range of new working possibilities full of adaptability and flexibility for collaborative thinking or individual work. Bring the tables together, station them next to Play Storage, pull them up to your desk or even work on them individually, Play tables have been created with flexibility in mind.

# Array

In today's fast paced world, multi-use spaces have become a requirement of most organisations. People work, meet and collaborate all in the same location; Array has been designed with this in mind. Whether you're conferencing or training, Array is adapted so you can think, learn and work with ease.

Array is available in four additional fixed top shapes: trapezoid, crescent, polygon and half round. In addition to this, three quadrants are also available that seamlessly clip onto any rectangular Array tables.
