

### AD-LIB FOUR LEG

The four leg stacking variant of our Ad-Lib multi-purpose seating range is an ideal meeting chair. The option of casters offers a mobile solution and the diversity of finish specification choices gives this chair a truly varied palette.

### DIMENSIONS

### DESIGN

PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at

the core is an attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

- EN15373:2007-L2
- GS Certificate

### SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

**-Reduce, Reuse and Recycle.**

While recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

**REDUCE  
REUSE  
RECYCLE**
