

FRAMED

Framed is a highly customizable modular shelving and storage system. It can be configured to tailor its environment precisely, whether it be an open shelving unit to divide up an open plan space or provide high-density office storage.

Framed starts with its intelligent aluminum frame into which modules

can be dropped into. The modules consist of shelves, planters, open and closed storage units as well as lockers. These modules can be mixed and matched as can the heights of the frame.

DESIGN

Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test center and prototyping lab.
