Mozaik

Design – Mark Gabbertas

The Mozaik seating family is made up of three principal shapes. A small soft square stool and soft rectangular bench available in two heights and a large low soft square stool. The two heights of upholstered unit allow for different seating styles that in turn facilitate different patterns of behavior, function and interaction. But their dual heights also suggest the function of the higher unit as a space division, a surface for a device, a support for the user's back or arm or a place to perch.

Mozaik Storage

Design – Mark Gabbertas

Mozaik Storage consists of a high level soft square unit and a low level soft rectangular unit. All units begin with the same minimalist steel frame with a fixed shelf both top and bottom. The central shelves of the high units can be removed to house tall items such as plants or vases. The low level unit makes an ideal occasional table for refreshments, books and magazines.
