

PLAY

As we transition from the traditional fixed desk office into a more open, collaborative, and informal working style, so too have our everyday working requirements.

Play is not one single product, it's a collection of pieces that can work individually or compliment existing Senator products.

At it's core is interconnectivity and versatility designed to empower every user or team to reconfigure their office on demand.

PLAY STORAGE

Configure Yours here

Play Storage provides you and your team with a flexible storage solution whether you want to create division, create workspaces, store, or simply add color. With an infinite number of possible combinations, you can have a high capacity, modular storage solution which is truly unique to you.
