

Sense iQ

Sense iQ takes away the discomfort of key management, on-site presence, and the lack of flexibility more commonly associated with traditional lockers and storage.

Sense iQ is the complete opposite of traditional lockers and storage. Using intelligent cloud based software and integrated smart locks, Sense iQ puts you in control of your workflow at user, regional and global level.

PRODUCT DETAIL

SENSE IQ

Standard Features (*Selected models only)

- TFL Carcass, Doors, Drawers and Shelves*
- Right Hand Door Swing
- Cable Routing in Side Panels*
- Adjustable glides up to 1.2"*
- Coat rail/Coat Hook*
- Upholstered seat pad*
- Changing Room Bench*
- Recycling Unit*

Specifiable Features (*Selected models only)

- Top Panel, Scribe Panel and Toe Kick
- End and Infill Panels*
- Keynius Smart Lock System*
- Smarty Terminal*
- OJMAR Batteryless RFID Lock*

Optional Features (*Selected models only)

- Socket Tray covers for Power Options*
- Cable Basket*
- Number Discs/Routing*
- Light and USB Charging
- Keynius App Subscription

Performance Standards

Designed to conform to and where applicable is tested to the following standards:

- BIFMA X5.9 x 2014
- Safety, Durability, and Structural Performance

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width

Some units are only available in certain widths, please see product pages for further information.

Why Sense iQ

The rise of smart storage has emerged to transform, what most see as a simple locker, but we see as an opportunity to...:

1. Save space
2. Gather data insights and reporting
3. Provide Individual or Project storage
4. Book and reserve lockers in advance
5. Centralize and digitally control admin tasks
6. Enhance user experience with multiple options for access
7. Provide Safe and Secure storage

Sense iQ: Lockers

Complete Unit comes in White TFL with Contrasting finish available on Doors. Trim pieces can be specified to match doors.

Lock Options
Choose Between Keynius Smart Lock or Ojmar Batteryless RFID Lock.

Grain Direction
Grain direction side to side on horizontal panels and top to bottom on vertical panels.

Leveling Feet

Lock Options

Keynius Smart Lock

Batteryless RFID Lock

Standard Features

Terminal

Coat Hook

Bottom Locker Drawer

Optional Features

Light and USB Charging

Routed Number Discs

Sense iQ: Easy To Control And Configure

Our innovative and extremely flexible Keynius Solution turns any locker system into the perfect solution for your situation, environment and applications. A unique, plug & play cloud application, without software maintenance and management costs, that will provide you with the robust reliability and security that you expect.

Compared to other smart locking systems on the market, Keynius offers several unique features which sets it significantly apart.

Control

It is the only system that offers the possibility to program every locker individually (e.g. to function as an employee locker, an IT asset locker, or a parcel locker), to make access possible with multiple controls (e.g. a company card + app + pin code) and have a mechanical override in case of a power shutdown.

Configure

Locker management can be done via PC/laptop/tablet/mobile/ touch screen, offering easy setting options and reporting.

KEYNIUS LOCKER CONFIGURATIONS

- Visitor Locker
- IT & Asset Locker
- Click & Collect Locker
- Personal Locker
- Team Locker
- Employee Day Locker

KEYNIUS SMART LOCKING CONTROL

- Touch screen (smarty)
- QR/Barcode
- Fingerprint
- Pay
- key card (RFID/FC)/Apple Wallet
- App (Mobile/Tablet)
- Online (Mobile/Tablet)

Sense iQ: **Software**

Easy and intuitive

Keynius does not require an expensive server or complicated installation. It is a cloud solution, so a standard internet connection is sufficient to manage your locker solution. Users reserve and use their lockers easily via the app, online or via the terminal.

Cloud software

Keynius is a cloud solution that runs on a (highly secure) Microsoft Azure platform. The maintenance and updating of the server and software are fully outsourced and guaranteed, ensuring that all user data is highly secured.

Any kind of use

Keynius allows you to easily configure your lockers for any type of use: with permanently assigned or flexible lockers, known or anonymous users, payment options and inventory management of the products.

Keynius app

With the Keynius smartphone app (Android and iOS), users can easily reserve, operate and pay for their lockers. Reserving and/or collecting company assets (equipment, clothing, keys) is very easy with the app.

API links

Using an API data connection, you can easily integrate with your own user management software. Standard APIs are available for commonly used applications, and custom APIs can be created.

Online management

Administrators have full control over the settings and use of the lockers via the Keynius online platform. It is easy arrange matters such as rental administration, asset management and inventory management of locker products.

Management reporting

The Keynius online platform gives you quick and easy insight into the use of your lockers and allows you to view and download reports yourself, incorporating historical or real-time data. Using an API data connection with your own (user) management software, you can integrate and easily handle user management. Standard APIs are available for commonly used applications, and custom APIs can be created.

Sense iQ: **Management Reporting**

The Keynius online platform gives you quick and easy insight into the use of your lockers and allows you to view and download reports yourself, incorporating historical or realtime data. Using an API data connection with your own (user) management software, you can integrate and easily handle user management. Standard APIs are available for commonly used applications, and custom APIs can be created.

Summary of Grain Depth and Structure for TFL Premium Woodgrains

TFL Premium Woodgrains are part of Egger's Feelwood range, characterised by a deeper and more pronounced grain structure compared to standard TFLs. To manage this depth and prevent damage to the decorative paper, Feelwood decors incorporate additional barrier layers. This construction enhances impact resistance, bending strength, and durability.

What makes the Feelwood TFL Premium Woodgrain different?

The deeper texture in Feelwood decors is synchronised with the visual pattern, creating a highly realistic wood effect. This design also results in a slight thickness increase of approximately 0.6".

These features distinguish Feelwood products from standard TFLs, offering superior durability and enhanced aesthetic appeal as a unique selling point.

Due to the more pronounced grain structure, TFL Premium Woodgrains may not be ideal where a smoother finish is required.

Samples can be ordered through our GroupPortal or by contacting customer service.
