

FREEFLEX

I LIKE THE WAY YOU MOVE

Freeflex provides a clever and adaptable solution to support the user's movements in their working environment. Flexibility is central to the design of Freeflex, giving the user the freedom to make simple adjustments; to their seat height, seat depth and back height to achieve ultimate comfort.

In designing Freeflex, special attention was paid to the user's natural pivot points, where they flex and where they don't. This inspired the development of a dynamic weight balancing tilting action and articulated flexing back, which intuitively encourages movement, whilst providing great support.

Freeflex is available in an array of Color choices and combinations of Graphite and Black components or Graphite and Light Gray components, to create inspirational spaces within workplaces.

DIMENSIONS

FREEFLEX

STANDARD FEATURES (*Selected models only)

- 2.5" hard wheel casters*
- Stool height variation*
- Weight controlled synchronized mechanism with travel limitation in four steps, including locking upright*
- 2.4" seat depth adjustment*
- 2.75" back height adjustment
- Integrated flexible back membrane
- Width and height adjustable arms*
- Molded seat and back foam

- Contrasting mesh side panels on the seat and back, with a complementary colored back insert

OPTIONAL FEATURES

- 2.5" soft wheel casters
 - Two-tone upholstery
 - Gas lift color options
 - Choice of finish options available
- * Click to see finishes page

- ANSI/BIFMA x 5.1 x2011
- SCS-EC10.3-2014 v. 4.0 Indoor Advantage Gold

PERFORMANCE STANDARDS

MATERIAL CONTENT

Components are constructed of the following

RECYCLED CONTENT

Contains up to 8.00% of Recycled Material

RECYCLABILITY

The range is 99% recyclable

DESIGN

Justus Kolberg

Justus Kolberg has been running his own design studio in Hamburg since 1997 after completing his studies in industrial design at the Muthesius Academy of Fine Arts and Design in Kiel in 1990.

Justus has received numerous honors including the IF Hannover Product Design Award, the Red Dot Design Centrum NRW, the IDEA-Gold Industrial Design Excellence Award and the Japanese Good Design Award.

FREEFLEX

BODY BALANCE TILT

- Features an intelligent recline mechanism that automatically adjusts to provide the correct level of support through the full range of its 22° recline motion with a ratio of 3:1.
- This mechanism incorporates a tilt travel limiter with three preset ranges of movement:- 5°, 12°, 22° of recline as well as the ability to lock in an upright position. The geometry of the mechanism truly balances to the individual user and ensures secure stable sitting while maintaining the correct orientation to the desk and VDT.
- The mechanism utilizes a single control for both seat height adjustment and for selecting the range of recline or upright lock. Seat depth adjustment is incorporated as standard. All controls and adjustments can be easily accessed from the seated position.

AT A GLANCE

1. Flexible upper back
2. Multi-adjustable arms
3. Height adjustable back
4. Weight controlled synchronised mechanism and travel limitation in 4 steps, including locking upright
5. Graphite components with Black or Light Gray back and arms
6. Choice of contrasting mesh side panels and back insert Colors

GOOD TO KNOW

A cantilever side chair and stool height variation of Freeflex is available.

Please note: Features are model dependent, please refer to price list pages when specifying

FREEFLEX

FINISH OPTIONS

- 5 star base available in Graphite plastic or Polished Aluminum
- Plastic components available in Graphite with Black or Light Gray back and arms
- Contrasting mesh side panels and back inserts available in either Fog, Carbon, Storm, Sunset, Aqua or Avocado
- Freeflex can be upholstered in a broad range of contract upholstery fabrics, vinyls and leathers from The Senator Group standard upholstery collection
