

Framed is a highly customizable modular shelving and storage system. It can be configured to tailor its environment precisely, whether it be an open shelving unit to divide up an open plan space or provide high-density office storage.

Framed starts with its intelligent aluminum frame into which modules can be dropped into. The modules consist of shelves, planters, open and closed storage units as well as lockers. These modules can be mixed and matched as can the heights of the frame.

OVERVIEW

Idea Starter 2

Idea Starter 4

CERTIFICATION

Standard Features

- Cast Aluminium & Steel fabricated base metalwork
- Plastic glides with levelling adjustment
- MFC Storage

Optional Features

- Aluminium extrusions available in selection of colours
- Various storage options

Performance Standards

- BS EN 16121:2013+A1:2007 - Test Level 2

DIMENSIONS

Idea Starter 1

Overall Height: 1050
Overall Width: 2040
Overall Depth: 440

THE THREE R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business. To meet both international standards and our own environmental targets we apply the three R's principle – **Reduce, Reuse and Recycle**.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

–Reduce
–Reuse
–Recycle

FINISHES

Options

- Aluminium base frames and fabrications available in White, Black, Forest and Silk Grey.
- MFC storage available in Carini Walnut, Autumn, Strata Oak, Maple, Highland Oak, Winter Oak, Hacienda White, Light Grey, Denim, Clay, White
