

# ADAPT WALL

Individuals, as well as organizations, have all learned to react to new ways of working.

This constant reaction to the change of an individual's daily working routine was the catalyst for Adapt Wall. Born out of the idea to create mobile partitions — to enable more agile, fluid, and flexible spaces — empowering every user to create spaces that work for them in that moment.

Engineered for possibility, its lightweight form is agile, enabling greater ease of movement, while being extremely stable ensures Adapt Wall can confidently transform any space on demand.

# FINISHES

The natural world and industrial spaces have influenced our wood and metal finishes.

Wood grain finishes are European in tone, from crisp Hacienda white to cool Winter Oak. For a contemporary look choose from muted shades of blue or a neutral palette of gray and white.

Matte wood finishes absorb the light and polished metal frames add reflection, combining light with the dark for ultimate finish.

## TFL FINISHES
