

ARRAY

In today's fast-paced world multi-use spaces have become common. People work, meet and collaborate all in the same location.

Array has been designed with this in mind. Whether you're conferencing or training, Array is adaptable so you can think, learn and work with ease.

Array is available in four additional top shapes; Trapezoid, Crescent, Polygon and Half Round. In addition to this, three Quadrants are also available that seamlessly clip onto any rectangular Array mobile tables.

Whatever your requirements Array can easily adapt to your needs.

Standard Features (*Selected models only)

- Rigid cast Aluminium frame
- Full integrated cable management
- Fully lockable brake castors
- Nesting capabilities
- Gas assisted lift operation
- Single handle to unlock

DESIGN

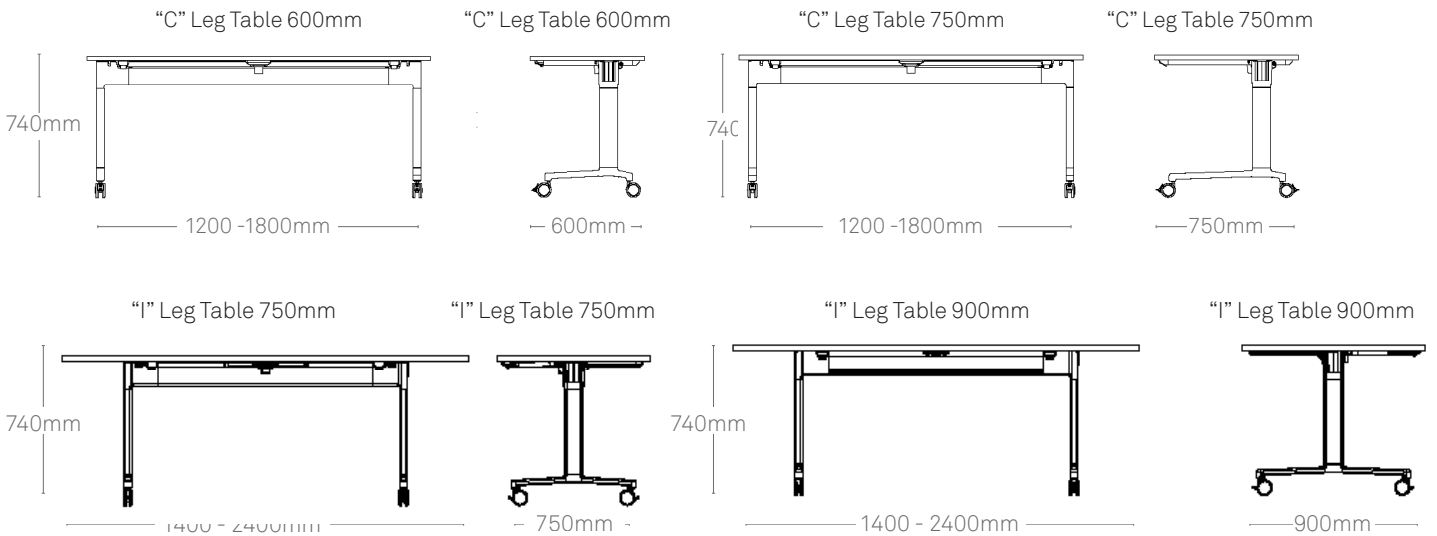

By Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Centre located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test centre and prototyping lab.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce
Reuse
Recycle
