

FREEFLEX MESH

The new Freeflex Mesh task chair delivers fantastic comfort with simple elegant styling. The chair's ergonomic design and contoured mesh back allows

heat to ventilate away from the spine, making it particularly suitable when postural support is required for long periods of time.

Design by Justus Kolberg

Standard Features (*Selected models only)

- Self-supporting mesh back
- 6 mesh colours
- Adjustable lumbar support
- Multi-adjustable arms
- Weight controlled synchronised mechanism and travel limitation in 4 steps, including locking upright
- Graphite components with Black or Light Grey back and arms

Optional Features

- Choice of contrasting mesh side panels and back insert colours
- Castors for hard and soft floor coverings
- Gas lift options
- Two-tone upholstery
- Choice of finish options available – see finish page

ENVIRONMENTAL

Material Content

Components are constructed of the following

Recycled Content

Contains up to 22% of Recycled Material

Recyclability

The range is 99% recyclable

99%

Environmental information for this range has been based on FLX740HA. For more detail please refer to individual EPA sheets.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce
Reuse
Recycle
