

SENATOR

RAPT

Rapt exudes poise and offers a fresh alternative to the established norms of executive seating. It has been created to grace environments where key decisions are made, where success happens, where detail and conviction are imperative and where extraneous distractions need to be eliminated.

A simple automatic recline adjustment, together with the ability to regulate its height encourages movement that fosters creativity. This executive chair boasts luxury upholstery, twin needle stitch detail along its perimeter and clearly defined zones of support.

Design by Jonathan Prestwich

Environmental information for this range has been based on RAP115C.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce Reuse Recycle
