

SENATOR

JONNY

A simple, cost effective and well-engineered stacking chair solution, Jonny encourages collaboration through its responsive, open design that supports a multitude of postures and environments. Jonny allows natural movement allowing the user the ability to interact and focus on the task in hand.

The Jonny family includes stacking chairs on castors or glides available with or without arms and stools that are as stylish as they are versatile. Jonny is available in a palette of fresh, lively colours including; Citrus, Azure Blue, Storm and Aqua. Sophisticated neutrals complement, while vibrant primary hues create pops of colour in inspirational spaces.

Design by Senator

DIMENSIONS

DESIGN

Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Centre located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test centre and prototyping lab.

ENVIRONMENTAL

Material Content

Components are constructed of the following

Recycled Content

Contains up to 26.5% of Recycled Material

Recyclability

The range is 99% recyclable

99%

Environmental information for this range has been based on JNY01.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce Reuse Recycle
